Product Facts (Continued)

For Equine Use Only. Recommended for sand clearance in all classes of horses..

Directions for Use

Provide to mature horses (1,000 lbs) at the rate of four (4) to six (6) ounces per day for a period of seven (7) consecutive days (one week) out of each month.

Continue the "one week on--three weeks off" cycle as needed or as directed by your local, attending veterinarian. Usage rate may be adjusted proportionately, based on weight, for larger horses/draft breeds or smaller breeds, yearlings and ponies.

The enclosed ½ cup scoop will hold approximately two (2) ounces (57 grams) when filled to "slightly rounded".

Always make certain that horses have unrestricted access to clean, fresh water when using Sand Trap+DFM. Do not provide Sand Trap +DFM to a horse with a reduced water intake. Please consult your attending veterinarian prior to use.

Warnings:

- For animal use only. Keep out of the reach of children and animals.
- In case of accidental overdose, contact a health professional immediately.
- This product should not be given to animals intended for human consumption.
