

Yeast⁺1521

Yeast Culture + Live Cell Yeast

For use in Equine Diets

Guaranteed Analysis

Crude Protein (min)	16.00%
Crude Fat (min)	1.00%
Crude Fiber (min)	12.00%
Live Yeast Cells.....	1.40x10 ¹⁰ per oz.
Total Yeast Cells.....	2.50x10 ¹⁰ per oz.

Ingredients

Sacchromyces cerevisiae yeast, Dried
Sacchromyces cerevisiae fermentation
product (yeast culture)

Manufactured by

HorseTech[®], Inc.

Laurens, IA 50554

Available Online at

www.horsetech.com

1-800-831-3309

Feeding Directions

Feed to horses at the rate of one (1) ounce per head per day.
The enclosed 48cc scoop will hold approximately one (1) ounce (28.4 grams).

HorseTech Yeast+ is an excellent source of both concentrated yeast culture and active dry yeast. While the nutritional benefits of yeast culture are believed to be derived from metabolites that are residual to the fermentation process, live cell yeast is highly fermentative and serves as a digestive aid. The combination of yeast culture and live cell yeast will yield the best that each has to offer.

Each one (1) ounce feeding of HorseTech Yeast+ will provide over 14 billion live, viable yeast cells with the total yeast cell count surpassing 25 billion. The live cell yeast cultures used in Yeast+ have been selected for performance, viability and stability in equine diets.
