Net Weight: 12 Lbs. (5.44 kg)

*Designed Specifically for
Black & Bay Horses!*

Rev: 7/1/09 CD

Directions for Use

Provide Black 3 to mature horses at the rate of two to four ounces (one to two scoops) per horse, daily.

Four ounces (two scoops) of Black 3 will provide optimal results for most horses. Serving size may be reduced proportionately for horses weighing less than 1,100 lbs (lighter breeds or younger horses).

Introduce Black 3 to horses gradually. Start with ½ scoop (one ounce) the first day. Gradually increase the daily dosage to the desired level over a 10 to 14 day period. Do not exceed four ounces (two scoops) per horse, daily. The enclosed ½ cup scoop will hold approximately two (2) ounces by weight when filled to the ½ cup line.
